STANDARD FUNCTIONS

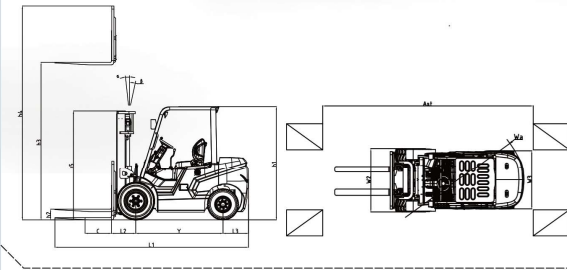

- High ground clearance with solid tires for excellent terrain adaptability
- 9-inch full-color display providing multiple real-time performance metrics
- Standard USB charging port to keep devices powered anytime.
- Built-in wireless phone charging for added convenience
- Optional automatic charge/discharge heating system for lithium batteries
- High-temperature protection system for safe and reliable operation
- High-efficiency permanent magnet synchronous motor with large-ratio gearbox for powerful performance
- Standard reverse assist handle and audible reverse alarm for safer maneuvering
- Modular powertrain with a clean, accessible layout for easy maintenance
- Automatic reverse lights standard, improving nighttime safety.
- Premium semi-wraparound seat for superior comfort Comfort-focused design keeps you productive all day long
